

Can training be funded through the NDIS?

With the changes that came into effect on October 3rd, 2024.

OUR GUARANTEE

If you enrol and your NDIS plan is not able to fund the training we will cancel your enrolment - no cost to you.

- Although general parenting programs are not an NDIS support, the NDIS identified disability-specific parent/carer training as a 'carve-out' in the draft changes and **kept line item #15_038_0117_1_3 as a billable line item in the new NDIS Price Guide** released Oct 1st, 2024 (pg94).
- This means Carer/Parent Training is still a billable service within the NDIS as long as the training is disability specific and will meet the participants impairment needs.
- If you are plan or self managed, have funds available in your Capacity Building budget and an emotional regulation or mental health improvement goal you can enrol with our peace-of-mind guarantee.

Our disability-specific training:

understanding autism

- Brain differences
- Masking/Sensory input
- Executive functioning
- Become neuro-affirming

overcoming barriers

- Meltdowns/Shutdowns
- Anxiety & PDA
- School avoidance (can't)
- Aggressive behaviours
- Emotional Regulation

skills and connection

- Teaching new skills
- Social confidence
- Improve relationships
- Communication and connection
- Self-advocacy

What the Approved NDIS Support List Says and How We Fit In:

Early Intervention Supports for Early Childhood (0-9 years)

Supports that are evidence-based early childhood interventions supports for children 0-9 years **and their families** to achieve better long-term outcomes for the child.

This includes:

- Therapy provided by allied health professionals
- A key worker for a child's family

We are an eligible support as we are an allied health professional delivering evidence-based supports to the most key worker for a child's family - the primary carer.

Development of Daily Care and Life Skills

Support that provides training and development activities for participants **or carers** to increase their ability to live as independently as possible (including as part of psycho-social recovery support). This includes increasing the participant's ability to independently undertake the following activities:

- Managing a participant's own personal care
- Engage in social activities
- Improve relationships and social skills

We are an eligible support as we provide training to the carer to increase the participant's ability to live as independently as possible.
